Knott mudguards

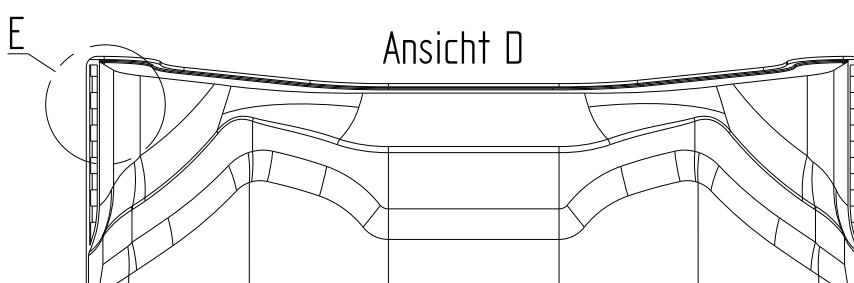

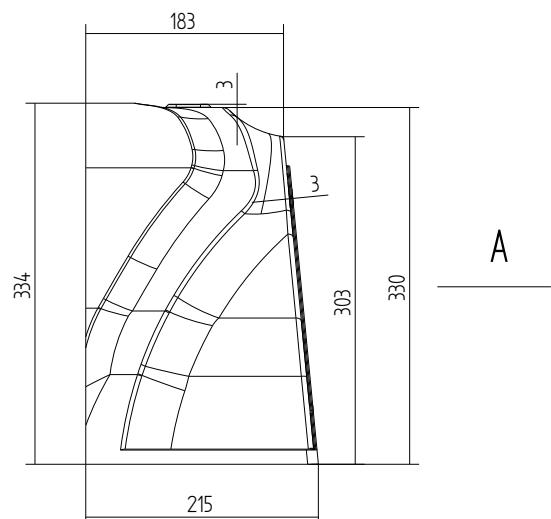

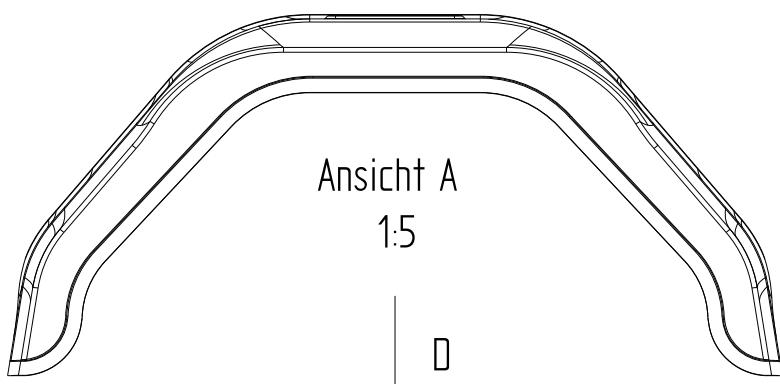

knott.pl

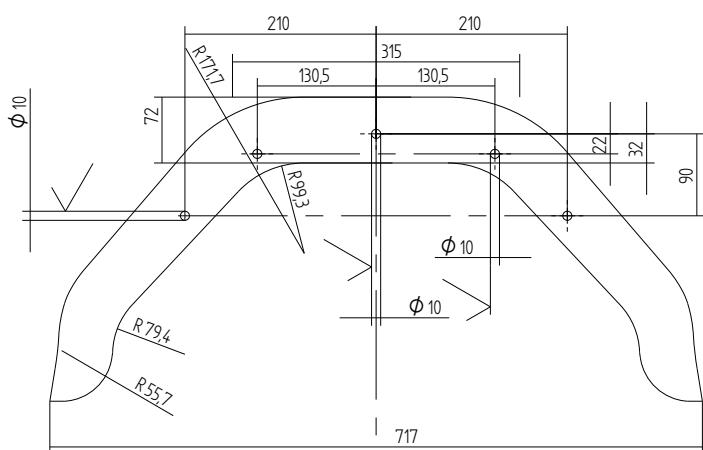

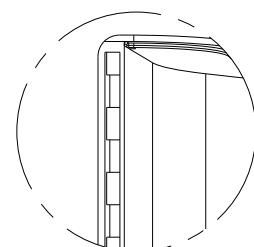

Dear Sirs,

The following publication aims to present the new plastic mudguards model. The material of manufacture ensures high quality and resistance to weather conditions.

The mudguard is equipped with a mounting to a dedicated mudguard, thanks to which it offers comprehensive protection against mud.

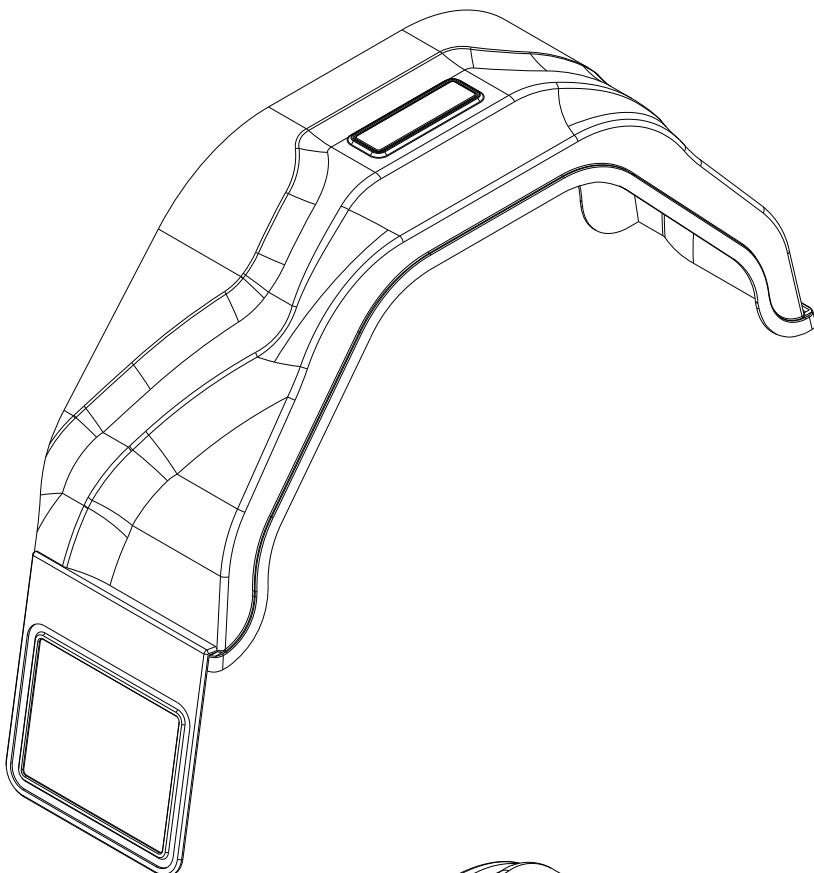

Detail E

Art. Nr 6BH388.xxx

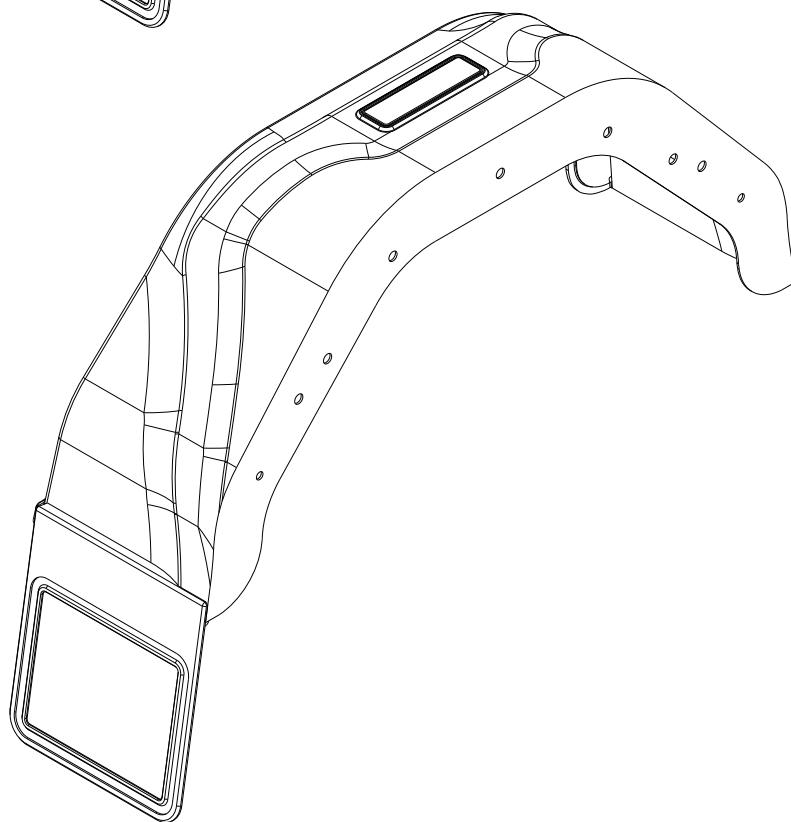

Mudguard holes as an option.
Thanks to this solution, it is easy and quick to install the mudguard on the trailer.

Dedicated mud flap as an option with quick mounting without screws.

This solution is possible thanks to the holes adapted to the cover in the mudguard.

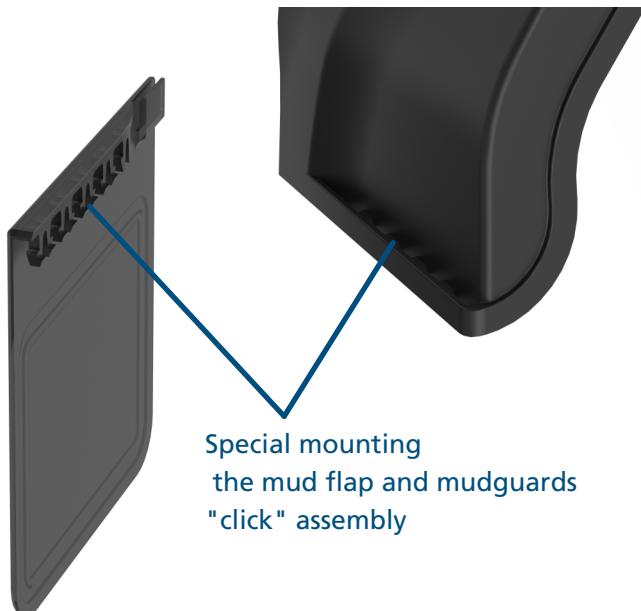

Installation takes place by pressing the mud flap into dedicated holes.

The mudguards have a place for the customer's logo, so we can make them with your logo on special request.

This interesting solution will make your brand even more visible and pay attention to a unique logo, thanks to which your company will be much more recognizable.

Poniżej prezentujemy przykładowe zastosowanie oferowanych błotników

The fenders can be delivered in any color. Currently, we offer black (RAL9005) and gray in two shades: RAL7015 and RAL7040.

The logo on the mudguard is an additional option at your request.

Mudguards are available in 2 versions:

- with mounting holes
- without holes

depending on what you just need.

Detailed information about the products is provided by the Trade Department of KNOTT Sp. z o.o.
