Dear Sirs,

An important element of the trailer's operation is undoubtedly the technical review. We know perfectly well that this is the basis for maintaining the trailer in good condition, which is why we encourage you to use service signs and stickers that will remind you about the annual review.

We recommend that reviews be carried out:

- every 6 months in the case of trailers used intensively and in harsh conditions,
- every 1 year for other trailers

Service plate

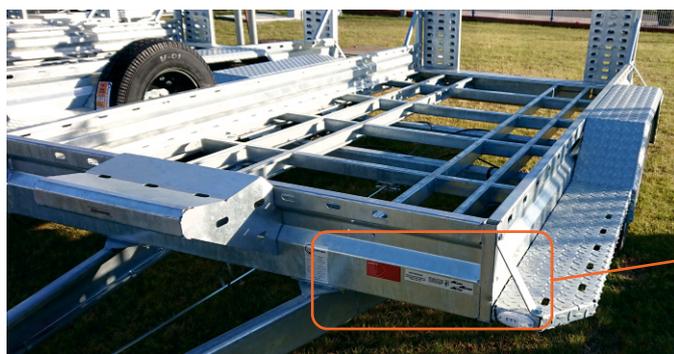

Offered signs made of high quality materials ensure high resistance to conditions atmospheric, so they will serve you for years

Service sticker

Service stickers made of foil resistant to weather conditions, temperature and operation UV rays guarantee durability and readability for the period until the next review.

We recommend remembering the date of the braking system performance test, because properly functioning brakes are one of the most important road safety elements. This term is marked with an arrow on the plate indicating the relevant month of the year on the sticker. Just stick it on the plate after each inspection.

Each control test carried out on the KNOTT website is documented in the trailer's periodic inspection book.

Badanie kontrolne przyczepy			
Miejsce:	Data:		
Przeprowadzono		Tak	Nie
Serwis podstawowy			
Przegląd układu hamulcowego			
Regulacja układu hamulcowego			
Czynności dodatkowe:			
Wymiana linek hamulcowych
