Theft protection

knott.pl

## Theft protection

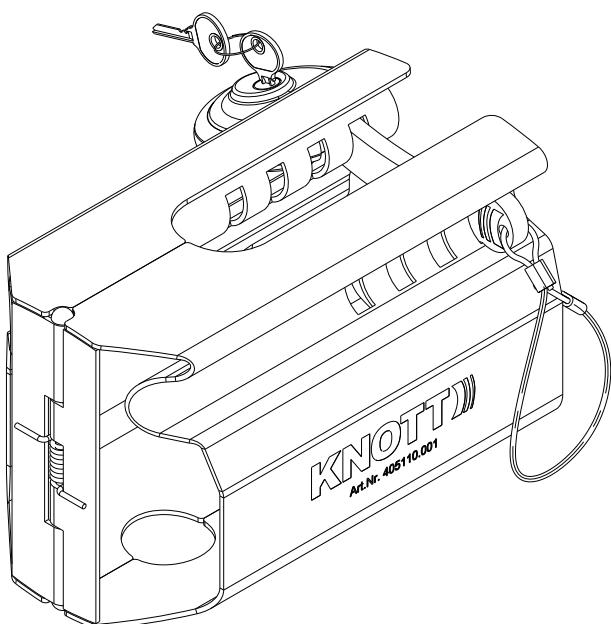

Dear Sirs,

Each of us knows how important it is to secure the trailer against theft, which is why we would like to offer two models of protection mounted on the ball hitch of the trailer. Thanks to it your trailer will be secured against the coupling, and you will be able to sleep peacefully.

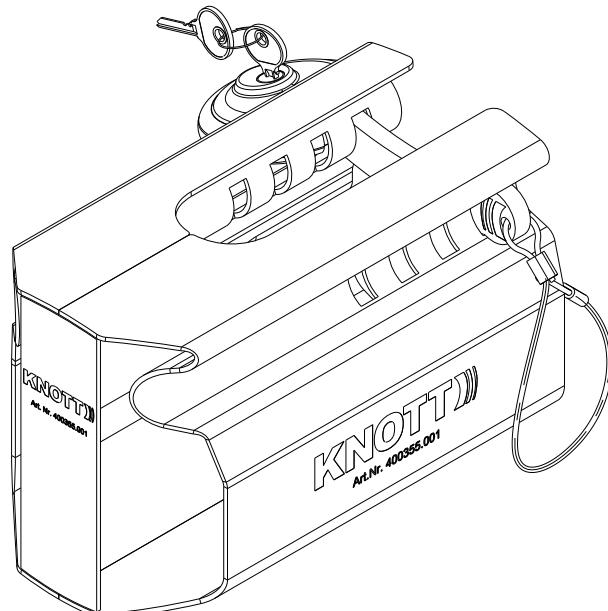

The offered protection is available in two versions: on the catch and closed on the ball catch.

Both protections are made of galvanized sheet, thanks to which they are protected against adverse weather conditions and their lifespan is relatively long.

As a protection against opening by third parties, we offer a padlock sold in a set and equipped with two keys.

Art. Nr.210042.001
