Alloy Rims - KNOTT

knott.pl

Alloy Rim - KNOTT

Dear Sirs,

In our offer you can also find alloy rims, which were designed by our engineers for users of car trailers. We would like to draw your attention to this product especially for aesthetic reasons and due to the fact that the family of these products in our offer is constantly growing.

The most important advantages of these rims include:

- less weight of the product - which translates into a higher load capacity of the trailer,
- more attractive appearance - depending on the preferences of the buyer, we offer several designs,
- high accuracy of workmanship - resulting in high aesthetics,
- better heat dissipation from the brake drums - especially due to the more intense air flow around the drum,

We also offer complete wheels with KNOTT rims.

We encourage you to ask our sales representatives about this offer.

Rim size	Name	Capacity [kg]	PCD	Bolt	Bore [mm]	ET	Weight [kg]	Art. No
10"	6,00lx10 ALU "KNOTT"	750/150km/h	112x5	conical M12x1,5	67	-4	4,7	414693.001
10"	6,00lx10 ALU "KNOTT"	750/150km/h	140x5	conical M14x1,5	94	-4	4,5	414693.001
