Support plates

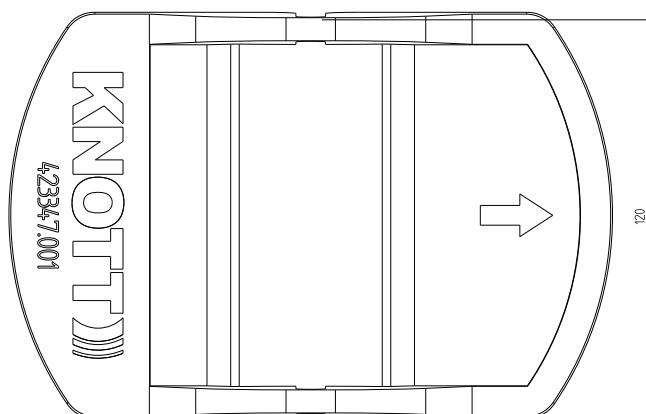

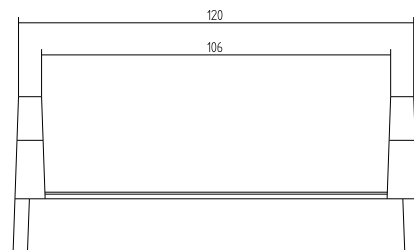

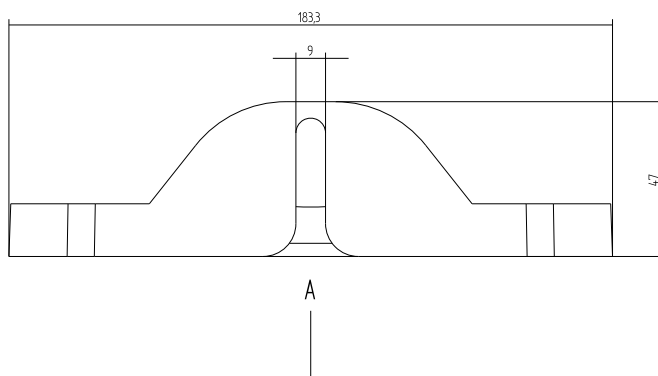

knott.pl

Dear Sirs,

in our offer you will also find support plates for folding supports offered by our company. The support plate are made of the highest quality polypropylene with the addition of glass fiber. This material is resistant to chemicals and UV rays, thanks to which its service life is relatively long.

Support plates are offered as a set - 423344.001

Made of high-quality materials translates into high compressive strength, thanks to which they easily withstand the permissible pressure of the folding supports - 900 kg.

The support plates are equipped with locking pins made of corrosion-resistant metal.

Locking after mounting on the support is done with a spring pin, thanks to which it is very simple and does not require specialized tools.

This solution also allows for driving with a trailer without removing the support plates, which is very important from the user's point of view.

Art. Nr 423344.001

Support with mounted washer.

Increased service life and durability of supports.

Greater aesthetics.

Detailed information about the products is provided by the Trade Department of KNOTT Sp. z o.o.
