Premium" anti-theft device

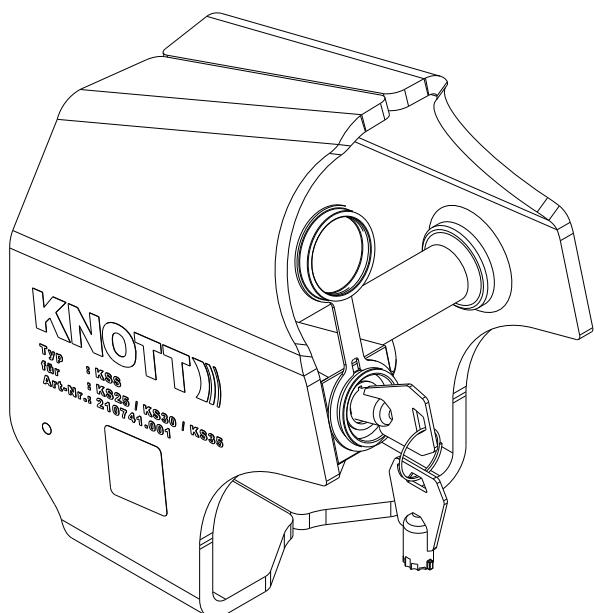

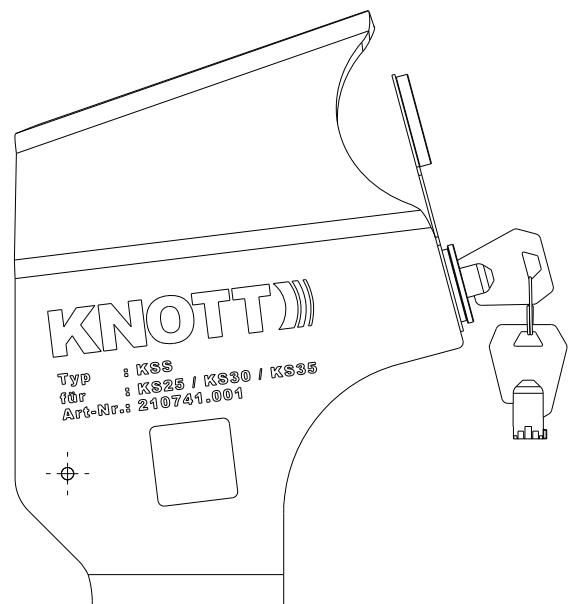

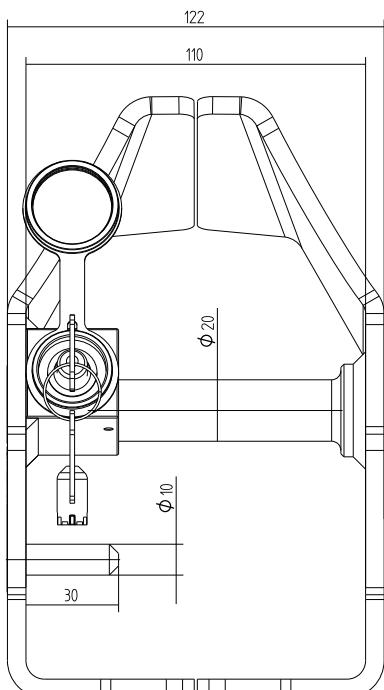

knott.pl

Dear Sirs,

The publication below presents the anti-theft protection for the KS25, KS30 and KS35 coupling. The offered article is characterized by the fact that, apart from the blockade preventing unhooking the catch from the hook ball, it prevents unscrewing the coupling from the overrun device.

The protection is made of hot-dip galvanized steel, which makes it strong and resistant to weather conditions.

Art. No 210741.001

„Premium“ anti-theft device is offered complete with Safety Ball KSB50.

The set also includes a lock with two keys, which is additionally protected against water ingress through a specially dedicated rubber lock cap.

„Premium“ anti-theft device has undergone a certification process, thanks to which we guarantee the highest standard of quality and safety

CERTIFICAAT

Kiwa SCM declares that on the basis of the initial assessment, as well as periodic assessments by Kiwa SCM, the confidence is justified that the Knott GmbH delivered vehicle security system Knott, type KSS series SCM, meets the requirements of the CCV Vehicle Security System Certification Scheme version 1.0 and CCV Vehicle Security Approval Regulations version 1.0 + C1

„Premium“ anti-theft device

KNOTT ||

Art. No 210741.001

The case of the anti-theft device is profiled so as to fit perfectly to the KS hitch, thanks to which it protects the caravan against theft much more.

Due to the fact that caravans have become popular among thieves, our security has been certified by the KIWA unit.

Thanks to this solution, you receive a guarantee and a certificate of compliance with the Vehicle Safety System Certification System, and you can more easily insure your trailer in the event of theft.

Detailed information about the products is provided by the Trade Department of KNOTT Sp. z o.o.
