Change of approval of the KZE7.5

knott.pl

Dear Sirs,

We would like to inform you that for reasons not attributable to us, the hooks with a connector KZE7,5 will be issued with a new approval number:

E1*55R02/00*1530*01 (E1 55R-02 1530)

The said modification is a result of changes introduced by certification bodies in the approval procedures and the departure of England from the EU. Brexit meant that it was decided to transfer the approval to certification bodies in the European Union, and this unfortunately entails a change in the approval number and markings on the product.

Bearing in mind that this is a popular hitch on the market, we would like to inform you that its use will probably require changes in your 01 FTL type approval. The hooks with a connector will be marked in accordance with the new extension of the approval and only such hooks will be offered for sale after using the current inventory.

To be 100% sure about the need to change your vehicle approvals, we kindly ask you to contact the certification body that serves you to confirm the above information.

Please include this change in your approvals in order to avoid problems and misunderstandings after the transition period.

E1*55R02/00*1530*01 (55R-02 1530)

E1 55R-02 150
B50X S-75kg
D/DC 7.20
DMC 750kg
