Drawbars ZHL7.5 - Change of approval number

knott.pl

Dear Sirs,

we would like to inform you that as a result of extending the approval of the ZHL7.5 drawbar, they will have a new approval number:

E1*55R02/00*1960*00 (designation **E1 55R-02 1960**).

The aforementioned change results from the introduction of the "D" version of the drawbar. From now on, the ZHL7.5-D drawbar (sheet t=2.5mm) will be available. The extension of the approval also allowed us to introduce several improvements and innovations resulting from product development and information coming from the market from customers

Bearing in mind that this is a popular drawbar, we ask you to determine individually with the units responsible for your whole vehicle approvals whether this change will result in the need to extend the approval on your side.

The old homologation number will be valid until the old stocks are exhausted, and all new production will be marked in accordance with the extension of the homologation, which we inform about.

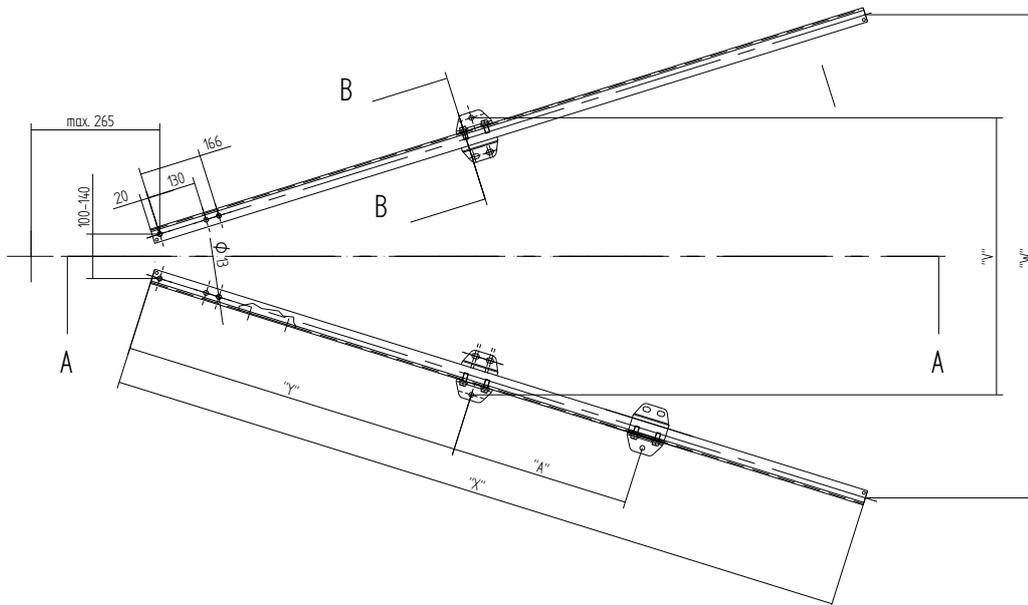

We ask that you include this change in your approvals to avoid problems and misunderstandings after the transition period.

E1*55R02/00*1960*00 (designation E1 55R-02 1960).
